CONNECTING TO COMMUNITY

Following her passion to help others succeed, Donna M. Griggs is proud to announce that DMG Design has expanded its role to focus specifically on municipalities, agencies, and business organizations who want to connect to the community at a grassroots level. With years of working with the Long Beach area community at the Long Beach Police and Fire Departments, and more recent service with the Office of the City Manager, Griggs brings a lifetime of volunteerism and more than 26 years of community relations leadership to DMG Design's new community-connecting role. Donna's connections come directly from her nearly 40 years as a community member active in Alpha Gamma Delta fraternity, American Cancer Society, Kids Motorsports Education, technology fraternity Epsilon Pi Tau, American Legion Yacht Club, Riverside National Cemetery Memorial Honor Detail, Lions International, Trojan Marching Band Alumni, Centro CHA, and Regional Hispanic Chamber of Commerce, with honorary memberships in the Long Beach Lifeguard Alumni Association and the Earl Burns Miller Japanese Garden. Her alma maters include Millikan High School, Chapman University, Long Beach City College, and the University of Southern California.
